SEPARATE APPLICATION FOR EACH VEHICLE

Act 879 of the 1986 Regular Legislative Session changed the method of collecting the Special Fuels Tax on vehicles which are powered using liquefied petroleum gas, compressed natural gas, and/or liquefied natural gas.

Compressed natural gas (CNG), liquefied natural gas (LNG), and liquefied petroleum gas (LPG) are subject to Louisiana's fuel tax when used to power a motor vehicle licensed or required to be licensed for highway use. The payment of the fuel tax is evidenced by a special fuel decal. The owners or operators of these vehicles are required to register each vehicle with the Department of Revenue and obtain a special fuel decal to indicate the payment of applicable fuel tax. The decals are renewed each year the vehicle is in use and are due annually by July 31. Vehicles acquired, altered, or converted after July 1 must be registered and have been issued a decal.
